2026 Wetland/Rain Garden Community Supported Natives (CSN)

This Grow Wild CSN is similar to the well-known agricultural CSA. By joining the Grow Wild! CSN you are supporting a sprouting community nursery that specializes in native plant species. CSN members by singing up early help us start our season strong.

This collection includes native plant species that thrive in moist to wet conditions, and are great for keeping water on your property rather than sending it away down sewers or ditches.

Wetland plants when used in depressions such as rain gardens, swales or ditches, can slow the movement of water during a rain event. These plants act as natural filters keeping pollutants from entering our waterways while reducing erosion as they slow down water moving across impermeable surfaces such as roofs and paved parking areas.

They do a great service protecting our waterways all while creating beauty and habitat on your land.

Whatever your wet conditions may be, this collection of 40 plants covering 75-100 sf will give you an instant and beautiful rain garden, ditch or wetland area.

The following plants are included in your membership in quantities of 3 each. If there are any of these plants that you would like to switch with another shown on the list, please ask for a change. We don't mind changing if the plants are available.

Asclepias incarnata ([Swamp Milkweed](#))

Eupatorium perfoliatum ([Boneset](#))

Helenium autumnale ([Sneezeweed](#))

Iris versicolor ([Blue Flag Iris](#))

Solidago patula ([Rough-Leaved Goldenrod](#))

Symphotrichum puniceum ([Swamp Aster](#))

Verbena hastata ([Blue Vervain](#))

Grasses and sedges add interest, texture and food and habitat for birds and other animals. Please choose which grass or sedge you would like in your garden. You will receive three plants.

Options with live links to plant information.

Carex Lupulina ([Hop Sedge](#))

Hierochloe odorata ([Sweetgrass](#))

Scirpus cyperinus ([Wool Grass](#))

Select One

- Carex lupulina* (Hop Sedge)
- Hierochloe odorata* (Sweet Grass)
- Scirpus cyperinus* (Wool Grass)

Please select your choice of 12 plants from the following list. We would suggest you choose four species of three each, but feel free to select however you like. **If you decide on selecting more than four different species, please write in the text box**

below the selection box what quantities of each you would like.

*** There is a possibility that we may need to substitute some of the species listed if we have unsuccessful germination. Should this happen, we will substitute with a similar species or allow you to choose your own option of choice.*

Options with live links to plant information.

Chelone glabra ([Turtlehead](#))

Eutrochium maculatum ([Spotted Joe-Pye Weed](#))

Filipendula rubra ([Queen of the Prairie](#))

Helianthus angustifolius ([Swamp sunflower](#))

Hibiscus moscheutos ([Swamp rose mallow](#))

Mimulus ringens ([Monkey flower](#))

Pycnanthemum virginianum ([Virginia Mountain mint](#))

Viola sororia ([Common Blue Violet](#))

Choose 4 species (3 plants each) or up to 12 plants. NOTE: If you choose more than 4 species please make notes below this selection field regarding the numbers of each species you would like to total 12 plants.

- Chelone glabra (Turtlehead)
- Eutrochium maculatum (Spotted Joe-Pye Weed)
- Filipendula rubra (Queen of the Prairie)
- Helianthus angustifolius (Swamp sunflower)
- Hibiscus moscheutos (Swamp rosemallow)
- Mimulus ringens (Monkey flower)
- Pycnanthemum virginianum (Virginia Mountain mint)
- Viola sororia (Common Blue Violet)

Notes:

Also, you will have the opportunity to select an additional four 4" pot plants from the nursery anytime during the 2026 season.

Please select your complimentary t-shirt design and size
